Please be known that I object to the NAB petition 04-160. I pay for listening to the satellite radio programming and traffic reports because there is NOTHING worth listening to on commercial radio. The number of commercials and length of the commercials keeps getting worse, when I'm in the car I listen to MUSIC, unfortunately commercial radio plays litte music (and the music they play is repeated day after day) and I don't mind paying for my choice, this is America, isn't it ?Tell the commercial broadcasters to clean up their act and maybe they will again become popular with the working class citizen. I don't appreciate a BIG lobbying group with more money than common sense dictating to me what I have to listen too.
